SUMMARY OF SKILLS AND QUALIFICATIONS

Languages: French/English (Native) – Spoken and Written (Fluent) • Vietnamese – Spoken and Written (B1 level) • Spanish/Italian – Spoken and Written (B1 level) • Japanese – Spoken (A2 level)

Operating Systems: Linux (Ubuntu) • Windows 10/11

Programming Languages: Python • Java • JavaScript • Bash • PHP

Frameworks/Libraries: Flask • Node.js • WordPress • Tailwind • React • PyTorch • Play Framework

DevOps: Git • GitHub • Bitbucket • Jenkins • Concourse • Docker • JIRA • Mantis • Silktest • Google Cloud

EDUCATION

Master of Applied Computer Science (MSc)

2025 - Expected 2027

Concordia University, Montreal, QC

- Member of the Institute for Co-operative Education
- 3.87/4.30

Bachelor of Computer Engineering (BEng)

2014-2019

McGill University, Montreal, QC

- 3.20/4.00

PROJECTS

One Model to Grade them All (Academic)

Fall 2025

Concordia University, Montreal, QC – Natural Language Processing

- Compared 3 machine learning approaches for automatic CEFR classification of English learner writing
- Trained models on EFCamDAT corpus and evaluated on multiple out-of-domain corpora
- Implemented Naive Bayes, Word2Vec, and RoBERTa (fine-tuned) models

Models: <https://huggingface.co/collections/theluantran/cefr-classifiers-one-model-to-grade-them-all>

GitHub: <https://github.com/luantran/One-model-to-grade-them-all>

Personal Portfolio Website (Personal)

Fall 2025

- Developed modern portfolio website with responsive design using React and Vite
- Implemented automated CI/CD workflow for GitHub Pages deployment

Site: <https://luantran.github.io>

Notilytics (Academic)

Fall 2025

Concordia University, Montreal, QC – Advanced Programming Practices

- Built reactive news analytics app with real-time article streaming, sentiment analysis, and readability metrics
- Implemented actor-based concurrency using Pekko Actors with asynchronous operations
- Followed standard industry practices of continuous integration with strict coverage testing

GitHub: <https://github.com/luantran/Notilytics>

Anime Dashboard Extension (Personal)

Winter 2025

- Built browser extension transforming new-tab page into anime-themed dashboard
- Implemented various features including to-do list and wallpaper carousel customization

GitHub: <https://github.com/luantran/anime-dashboard-extension>

WORK EXPERIENCE

Web Automation Developer Intern

Jan – May 2019

Broadsign, Montreal, QC

- Designed a new automation framework that reproduce a live environment against which integration and system tests can be run
- Automated the clean deployment and database population of a server using Docker and Bitbucket Pipelines
- Developed a Python REST tool library which developers could use to write their unit and integration tests

Software Developer Intern

May – Dec 2018

Ericsson, Montreal, QC

- Automated software installation processes to decrease runtime by 15% using Ansible
- Implemented a build certification process in custom Concourse to improve testing team's efficiency by 75%
- Developed automated Oracle backup and restore solution to decrease Concourse jobs' runtime by 20%
- Proposed and implemented new dispatch process for CI infrastructure by integrating Mantis API to Concourse

Automation SQA Intern

Jan – Aug 2017

Matrox, Montreal, QC

- Created a new automated testing workflow to improve reduce weekly manual testing by 10 hours
- Integrated Silktest, Jenkins and Testrail using Python to 100% automate log parsing, reporting and archiving
- Set up, configured and managed Jenkins servers and slaves
- Developed Python and 4Test test suites to perform functional and performance tests

ACADEMIC PROJECTS

Multimodal Torso Image Reconstruction (Academic – Capstone Project)

2019

McGill University, Montreal, QC

- Developed PyQt5 desktop application for medical visualization and registration for scoliosis surgical planning
- Implemented MRI, X-Ray, and surface topography display in interactive 3D environment
- Implemented rigid and articulated registration using anatomical landmarks to align imaging modalities

GitHub: <https://github.com/luantran/MultimodalTorsoImageReconstruction>

ADDITIONAL WORK EXPERIENCE

French Language “Francisation” Teacher

2024 - present

CEGEP Marie-Victorin, Montreal, QC

English / French Language Teacher

2023 - 2025

ILSC, Montreal, QC

English Language Teacher

2020 - 2022

Borderlink / SophiaZemi School, Okayama, Japan

INTERESTS

Passions: Photography • Hiking • Bouldering • Cycling • Anime/Manga • Video Games

Experience Abroad: Gap year traveling in Asia • Working holiday in Japan • Backpacked 25 countries

Personal Achievements: Everest Base Camp Trek (3 Passes variant) • Portuguese Camino de Santiago • Cycled from Hiroshima to Tokyo (1,000 km)
